Mr. Cumbie introduced his associates in a development project. He then made a presentation of their development plans on Highway 93. The project includes a need for 7000 ft. of roadway, 1000 ft. of water and 500 ft. of sewer. They desired to know if the Town Council was going along with the Planning Commission in their zoning recommendation. Also what the Town would do toward streets, water and sewer installation. The Council assured them that they would go along with the Planning Commission in zoning. However relative to the other request, no answer could be given at this time since the Town Council was studying a new sub-division Ordinance and Regulation.

The Mayor presented the Council a request from the Chamber of Commerce for an Ordinance which would apply to owners of empty buildings. The ordinance would require placing papers over windows of empty stores. The Administrator was to work up an ordinance.
