The open discussion consisted of the following:

The towns use of the Flock Camera Systems and how it is useful.

There was talk about how to engaged the public more and how to get more of the public to attend the meetings.

A new bill in the state were each municipality is charged \$50 + \$125 to have the state house juveniles at the DJJ facilities. That is \$175 per day per person that each town or city has to pay the state. Is that taken into account with our budget

Talk about having the police engage more with the youth especially when the basketball courts are finished and are being used. We all need to engage with the youth of our town.

Starting in January 2026 we want to have the Police Advisory Committee meeting every 2 months and these meeting will be held on the last Thursday of the month.
